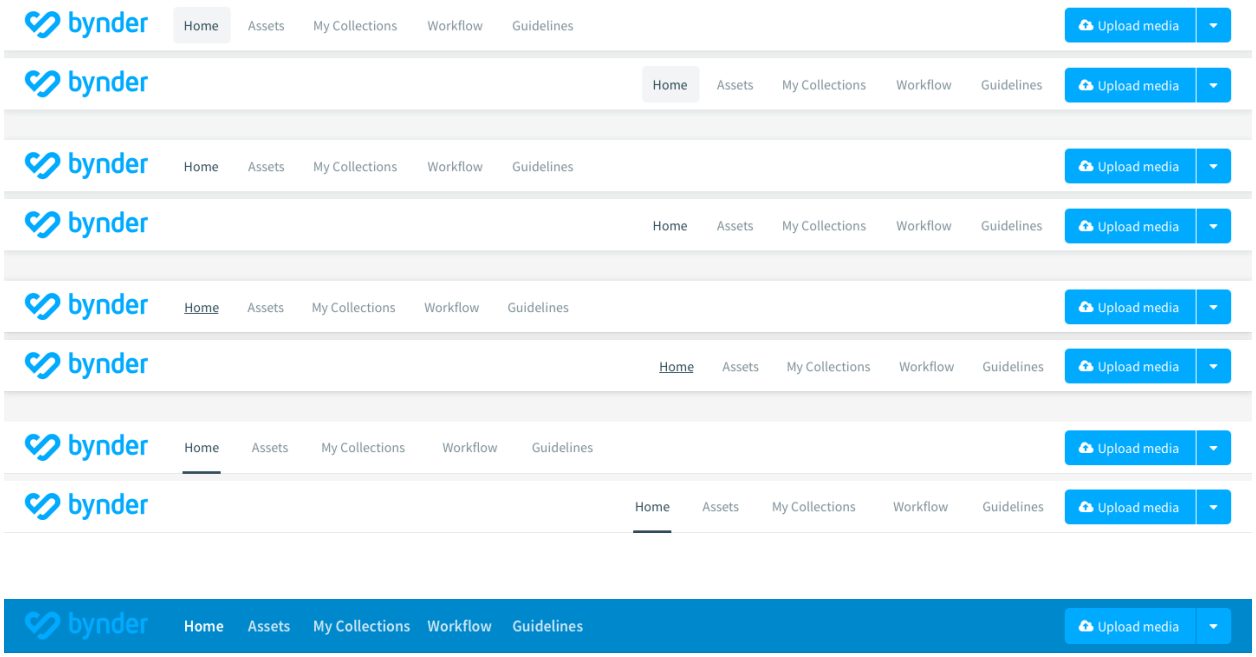
Professional services

Custom theming

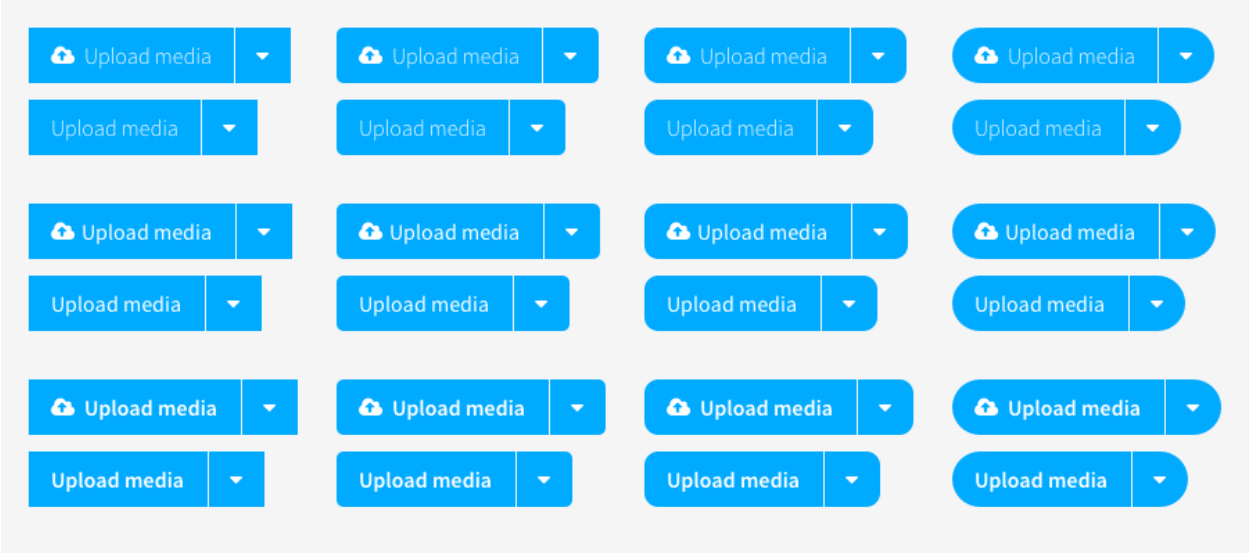
Navigation bar

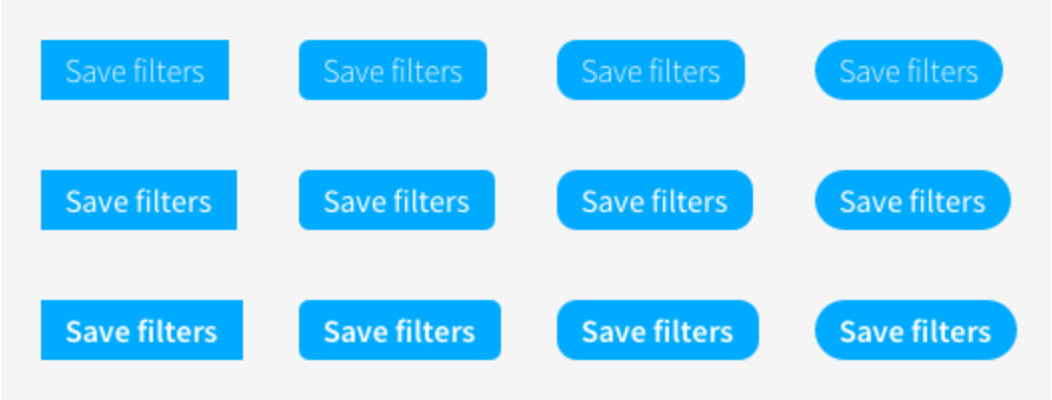
The navigation bar consists of your own company logo, menu links and our call to action button. Background color, text color, font family and font weights can be adjusted to match your guidelines. Hover effects and active links are also customizable. The menu itself can be left or right aligned. Please let us know which option you would prefer the most (option 1 - 4 + left or right aligned menu).



Primary buttons / Call-to-action

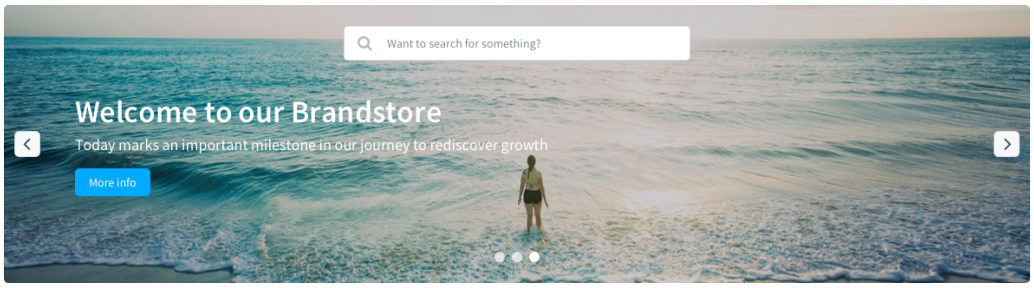
Our buttons are clean, flexible and modern. We will apply your own primary button color, text color, font family and font weight so that all our primary buttons will match your company's look & feel. Please let us know which font, font weight and border radius you prefer. The border radius options shown below are 0px (1st row) - 5px (2nd row) - 10px (3rd row) - 15px (last row).





Slider

Our slider has a width of 1184 pixels and a height of 320 pixels. Of course we can adjust the height and we can also make the slider full-width. A full-screen slider is unfortunately not an option offered by Bynder. By default our slider has a slight overlay on top of the image to prevent issues with unreadable text. This overlay can be disabled upon request.



Styling examples

The following visuals are examples of possible customisations: text color changes, font changes, border radius adjustments, height adjustments etc. Customized slider controls are supported as well. Our slider will become a static banner if only one slide is active. Please let us know which option you'd prefer the most or provide us your exact requirements.

Navigation tiles

Our navigation tiles are flexible and can take different shapes. Here you can see a few possible designs. We can of course change the font, font weight and colors to match your brand. Please let us know which option(s) you prefer to use on your portal and how many tiles you would like to have in one row. Other ideas / requests can be discussed.

Featured collections

Featured collections are ideal to provide instant access to a specific or frequently used collection. By default our featured collection consists of 5 images with a title and short description.

Different styling examples can be found on the next few pages. Please pick one of the options listed below if you would like to showcase collections on your dashboard.

Option 1
